LINKS TO OTHER ACARA LEARNING AREAS	
THE ARTS AND TECHNOLOGIES	<p>There are similarities and connections between aspects of the Design and Technologies curriculum and each of The Arts subjects. Some connections occur through use of materials such as fabrics and fibre to create arts works and/or designed products. Other connections occur through use of design processes typically in forms such as graphic, sonic or kinaesthetic design. Technologies such as 3D printing or modelling can be used to create arts works or production elements; for example, projections/video and/or use of immersive technologies.</p> <p>The Digital Technologies curriculum focuses on using digital tools and systems to create solutions. In each of The Arts subjects, students can use digital tools and systems to create works in traditional and emerging forms. In The Arts, students may use skills and knowledge learnt through Digital Technologies to develop their arts practice. For example, they might use programming to create or manipulate patterns and algorithms, images, songs, text, speech/language, or movement sequences. Different digital tools give students a variety of levels of creative control.</p> <p><a href="https://v9.australiancurriculum.edu.au/teacher-resources/understand-this-learning-area/the-arts#accordion-fb4a09cb14-item-b7265429d2">https://v9.australiancurriculum.edu.au/teacher-resources/understand-this-learning-area/the-arts#accordion-fb4a09cb14-item-b7265429d2</a></p>
THE ARTS AND ENGLISH	<p>The Arts and English share a focus on communicating ideas and perspectives in oral, aural, written and visual modes, with an awareness of purpose and audience. Both learning areas develop students' speaking, listening, visual literacy and writing skills as they individually or collaboratively develop, create and share their work.</p> <p><a href="https://v9.australiancurriculum.edu.au/teacher-resources/understand-this-learning-area/the-arts#accordion-fb4a09cb14-item-711b54a026">https://v9.australiancurriculum.edu.au/teacher-resources/understand-this-learning-area/the-arts#accordion-fb4a09cb14-item-711b54a026</a></p>
THE ARTS AND SCIENCE	<p>The Arts and Science each allow students to learn about, respond to and make sense of the world. As artists, students can use scientific knowledge to create arts works in conventional and innovative arts forms. Scientists and artists work collaboratively to communicate scientific understandings.</p>

THE ARTS AND HUMANITIES AND SOCIAL SCIENCES	<p>Through The Arts and Humanities and Social Sciences students explore and share stories, ideas and understandings about culture, identity and relationships. They develop respect and empathy for diverse perspectives and ways of seeing the world. As artists, students can explore ideas and perspectives relevant to the themes and issues that they encounter through Humanities and Social Sciences.</p> <p><a href="https://v9.australiancurriculum.edu.au/teacher-resources/understand-this-learning-area/the-arts#accordion-fb4a09cb14-item-9c74a3ea6f">https://v9.australiancurriculum.edu.au/teacher-resources/understand-this-learning-area/the-arts#accordion-fb4a09cb14-item-9c74a3ea6f</a></p>
